ENGLAND
& BUTLER

A *Taste* OF
THE SEASON

AUTUMN/WINTER 2022

ONE FAMILY. FIVE GENERATIONS. ONE ENDURING
PASSION FOR JOY-FILLED FOOD.

At Cartwright & Butler, great taste is in our genes. Our family has been creating the most exceptional teatime treats for more than 115 years, and the standards set in our kitchen of a terraced house in Yorkshire are still what guide us today. Cartwright & Butler is built on a passion for food that puts a smile on your face. We don't do low fat, won't count calories

and we'll never compromise on taste. We're all about the butteriest, the creamiest and the crumbliest, because that's what makes good food great. The world might have changed since the seeds of our business were planted in the 1900's. But what we stand for hasn't. The very best tasting treats that create moments of joy every single day.

LOOSE LEAF TEA

Tea is never just tea. Everything from the soil to the climate, the pick and the blend, will affect the quality of the cup. That’s why we’ve worked with master tea blenders to bring this new range of loose leaf teas. Available now, our signature clip-top tins feature illustrations of the tea’s origins around the tea plantations of Sri Lanka.

All of our pyramid tea bags and their strings, are made from Soilon which is plastic free, biodegradable and non toxic. The paper end on the tea bag and the outside packaging is 100% recyclable. Even the inner bag used is 40 mic OPP film which again is fully recyclable whilst maintaining product freshness.

SPIRIT OF ADVENTURE

When we noticed what afternoon tea really missed is a gin that’s designed to complement those dainty sandwiches, we set about creating one.

Working with a small-batch Yorkshire distiller, we landed on this deliciously light and refreshing London Dry gin.

Juniper is blended with our own Darjeeling Tea and Acacia Honey and with lemon, coriander and warm spice botanicals to create a gin which is the perfect afternoon tea tipple.

Presented in an oh-so-beautiful keepsake tin, this gin won’t fail to make an impression.
