El arte de captura

The art of the catch

CHATKA es la marca del Cangrejo Real Ruso (Paralithodes Camchaticus) capturado en las frías aguas de los mares de Okhotsk, Bering y Barents. CHATKA es probablemente el mejor marisco del mundo por sus propiedades organolépticas, con una textura y sabor únicos que satisface los paladares más exigentes.

CHATKA is the worldwide famous brand of Russian King Crab (Paralithodes Camchaticus) captured in the frozen sea waters of Okhotsk, Bering and Barents. CHATKA is probably the best seafood in the world due to its unique taste and freshness that makes it irresistible to the plate

La pesca del cangrejo real ruso es extremadamente peligrosa y se realiza exclusivamente en cestas gigantes para capturar estos enormes crustáceos que llegan a un peso medio de 10 kg, en su época adulta (10-12 años)

The Russian King Crab fishing is extremely dangerous and is only done in huge baskets. The adults crabs reach an average weight of 10 kg, when those crustaceans are in their final stage of maturity the meat is tasteful and we use for our canned CHATKA

Estos crustáceos vivos se seleccionan de un modo riguroso para obtener únicamente las mejores piezas que dan la excelencia a la marca CHATKA, se cuecen en agua marina y se manipulan a bordo de manera artesanal.

While still alive, the King Crab is selected in a rigorous way, it is cooked in sea water and shelled by hand using traditional methods. Only the best pieces are used to maintain the quality and excellence of CHATKA brand

CHATKA tiene sus orígenes en los años 30 y desde entonces disfruta de un alto reconocimiento de marca. Se trata de un producto de lujo, pero asequible a todo el mundo. Los volúmenes de pesca son muy estrictos y su captura tradicional, lo que hace que este producto sea realmente exclusivo.

CHATKA has its origins in the 30's and since then enjoys a high brand recognition. This is a luxury product, but affordable to everyone. Fishing quota is very strict and its traditional capture makes this product truly unique.
