For some extra zing, use the elegant spoon-grater to stir the grated roots into a classic curry, a delicious Caribbean sweet potato soup or your breakfast chia seed pudding. Or why not grate and stir into a fresh cocktail or your favorite smoothie? Works great on top of your morning latte, tea or super-healthy detox shot, too. CHILI is all about flavor and experience. Just like RIVSALT. So creating our own chili product, which you are now holding in your hand, felt natural. A perfectly shaped grater in stainless steel, a holder in oak wood and the best possible chili pepper selection we could find.

Our yellow amazon chili grows in Colombia. It belongs to the sharper but not extreme group of chilies with 50.000-70.000 Scoville heat units. Amazon chilies are harvested just before full ripeness, that's why they are yellow. Refine your soups, meat dishes and dips with this grated delight.

## 025 AMAZON & 026 BIRDS EYE

### DELICATE AND INTENSE FLAVOUR SENSATIONS

Common in many cuisines, chili peppers are used to add heat and flavor. Our yellow amazon chili grows in Colombia. It belongs to the sharper but not extreme group of chilies with 50.000-70.000 Scoville heat units. Amazon chilies are harvested just before full ripeness, that's why they are yellow. Refine your soups, meat dishes and dips with this grated delight.

The red birds eye chili originates from Uganda and each plant produces numerous hot pods. With 90.000-120.000 Scoville heat units on the Scoville scale, it's among the world's hottest chilies. The sharpness is intense and direct, and the taste is similar to Thai chili. Perfect for hot Asian dishes and your home-made BBQ sauce.

## 028 SPICE GRATER

### PERFECTLY SHAPED

With SPICE GRATER, you add flavor to your cooking in style and with ease. Specifically designed to grate all spices in the RIVSALT assortment, it's perfectly shaped to fit in the palm of your hand.

The grater is made of high-quality stainless steel and has small Japanese style blades instead of the holes you normally see on European-style graters. The small blades do the job perfectly and you see grains and shavings on the dish in front of you while you grate thanks to the grater's small size. You know exactly when to stop.

The RIVSALT product range is designed by Swedish entrepreneur and designer Jens Sandringer. Jens came up with the concept while dining at a Japanese Teppanyaki restaurant in Beijing, where the master chef grated salt over the dishes using a large grater and big salt rock.

A unique experience which sparked the initial product idea complementing the rise of Scandinavian foodie and design trends. The original RIVSALT product was launched in Sweden 2013.
